Conservatives delivering for you

Residents fear Jeremy Corbyn's crazy and destructive policies will damage Great Yarmouth

After nearly a decade as Great Yarmouth's Member of Parliament, Brandon Lewis, has a strong record of achievement for our area. Widely recognised as a formidable advocate for our constituency in Westminster and Whitehall, we are benefitting from his hard work on our behalf.

Early on, Brandon convinced the government to make the town an Enterprise Zone, helping to bring in new business and create jobs. He argued for a freeze on petrol tax and an income tax cut for the lowest paid to help local people. And he has drawn in millions in investment for local infrastructure, which will include a

new river crossing and road improvements, after years of Labour neglect.

Many residents are worried at the prospect of Labour winning this election. NHS nurse, Aurelio, told us, "I am scared at the thought of Jeremy Corbyn in Downing Street. His crazy policies will crash our economy and wreck public services like the NHS. He will undo all the good work Brandon Lewis has done for our area. Brandon has worked so hard to get extra funding for our hospital and voted for the biggest cash injection in the NHS ever. We can't risk a Corbyn-led government."

Popular retired GP, Dr Kumar, is backing Brandon Lewis at this election because he has secured millions of extra funding to improve our local NHS facilities

YOUR CHOICE AT THIS ELECTION

Getting Brexit done so we can invest in the country's priorities

OR

A hung parliament with Jeremy Corbyn in charge

Working for Great Yarmouth all year round

We'll get Brexit done. No ifs, no buts.

In 2016, people voted to leave the EU. We've had three years of delay. We can't afford FIVE more years of delay. It's time to leave and get on with our priorities.

We'll deliver Brexit – no ifs, no buts. That way, we can get on with priorities like investing in the NHS.

We're hiring 20,000 extra police officers. And we're giving them the powers they need to make our streets safer.

Breaking up county lines drug gangs

We need to get a grip on crime. That's why we're investing in police forces across the country.

We're hiring 20,000 extra police officers – so they can get out on the beat and make our streets safer.

But we're also investing an extra £20 million to break up county lines gangs. The investment means the police can strengthen their teams dedicated to ending the drug gangs. And it means we can provide more support for victims.

40 new hospitals and more investment

The NHS is part of our heritage. It's a statement of who we are as a country.

That's why we're getting RECORD investment to the NHS. £33.9 billion extra for the NHS – and 40 new hospitals.

Our investment means we can cut waiting times – with more senior staff on call. It means we can invest in new technology. And it means we can hire more doctors and nurses – so the NHS is there when we need it.

We're building 40 new hospitals, hiring more doctors and nurses and investing more money.

Getting Brexit done so we can focus on our priorities

■ The last three years have been frustrating. Politicians have spent all their time arguing about Brexit. And they've **FAILED** to get it done.

That's why we need a majority government. Because only a majority government can get Brexit done.

Here's the thing. The Brexit Party could end up blocking Brexit. That's because they could split the leave vote – and let remainers sneak through.

Do you want to risk **ANOTHER** hung parliament – and no Brexit?

**Let's get Brexit done.
To secure a majority
government, vote
Conservative.**

The only thing the Brexit Party would deliver is more confusion

The Brexit Party can't win a majority at the next election. In fact, the Brexit Party could help to split the leave vote.

So a vote for the Brexit Party makes it more likely that a remain candidate will sneak through. And that means a hung Parliament – with more of the endless arguments about Brexit.

We can't afford any more delay. If you vote Conservative, you'll help deliver a strong majority government – so we can get Brexit done and get on with our priorities.

**Nigel Farage
can't deliver
Brexit, but
he could yet
block it**

The Telegraph

The Brexit Party can't win a majority – so they can't deliver Brexit. A vote for them means we'll end up with Jeremy Corbyn as Prime Minister.

**NHS long-term plan:
Focus on prevention
'could save 500,000 lives'**

BBC News Online

**£33.9 billion extra for the
NHS** – as part of our long-term plan

**END OF THE SOFT
PRISON SENTENCE**

Daily Mail

20,000 new police officers
and tougher sentences for
the most serious criminals

**English schools to
get three-year £14bn
funding boost**

The Guardian

**More money for every
single school** – so every
child gets a better education

Dear Resident

We desperately needed this General Election – even though it is just a few weeks before Christmas. We need a new Parliament that will listen to the British people and get Brexit done! My top priority is to implement the decision we made in the 2016 referendum. Then we can continue delivering on your priorities.

Over the last decade, we've seen how a Conservative MP benefits Great Yarmouth. We've delivered a strong economy - cutting income tax, introducing National Living Wage, extending free childcare, and freezing fuel duty. And as MP I've secured new funding for our hospital and local NHS, extra cash for every local school and millions to improve our infrastructure.

We need an MP who can convince government ministers, public agencies and business to continue investing in our area. That means taking the fight to decision-makers in the heart of London and Whitehall. **We can't risk returning to the days when we had a Labour MP ignored in Westminster and delivering little for Great Yarmouth.**

I'm proud of a decade long record of achievement with a promise of more!

Funding boost for local NHS

Well-known and popular retired GP, Dr Kumar, has welcomed the news that the James Paget Hospital is to benefit from a massive multi-million-pound investment thanks to the efforts of Brandon Lewis..

Commenting about the funding Dr Kumar said, "I'm backing Brandon at this election! He has secured millions of pounds to improve facilities at James Paget Hospital." The funding boost includes new money to provide better cancer screening for

"Brandon has secured millions of pounds to improve facilities at James Paget Hospital"

patients, as well as a building upgrade.

The Conservatives are delivering the largest ever cash injection into the NHS. Dr Khan is delighted with the news, "Patients will see a difference in their GP surgeries and at our local hospital. As a retired GP, I'm dismayed that Jeremy Corbyn and Labour voted against increased NHS spending in recent budgets, which would leave the NHS seriously underfunded."

our plan

for Great Yarmouth..

**Help me deliver
Our Plan for
Great Yarmouth .
Vote Conservative
on 12th December.**

1

Improve the James Paget Hospital

The extra money we've secured for the James Paget Hospital will help us upgrade the building and improve cancer screening facilities.

We will continue campaigning for extra funding.

4

Make our neighbourhoods safer

As a Home Office minister, I know the new powers for the police will make tackling serious crime easier.

We can work together, in our communities, to create new neighbourhood watch areas to make our streets safer.

2

More apprenticeships and new jobs

Working with employers we've helped provide new opportunities for our young people.

We will continue that work to create extra apprenticeships and new jobs.

5

Keep Great Yarmouth moving

After years of lobbying rail companies we've seen improvements to the station and new trains. New funding for the A47 and the Third River crossing will keep the town moving.

We will keep up the pressure to secure further road and rail improvements.

3

More affordable homes

Everyone should have the opportunity to live in a good quality home. As housing minister I introduced policies to help families onto the housing ladder.

We will work with local communities to build homes where they are needed.

6

Build a brighter borough

Your survey responses have told me that we need to continue the work to improve our neighbourhoods.

I will work with our borough councillors and residents to tackle problem areas and make our communities even better places to live.
